

Billing Information

Billing

There are a variety of different options available for paying your bills. Node1 Internet accepts cash, EFTPOS and BPAY®. Details of these payments will be on your monthly invoice.

Alternatively, if you'd like to set up direct debit from a credit card or bank account, you can login to your Node1 Internet account and submit a direct debit authorization form. If you would like one emailed or posted to you for completion, please email collections@node1.com.au to arrange this.

Bills are issued via email on approximately the 4th of each month for the following month's usage, and are due at the end of that same month. For example, on the 4th of May, you will be billed for June, and your bill will be due on May 31st.

If you pay via direct debit from credit card, your nominated card will be debited on the first business day of the following month.

If you pay via direct debit from a bank account, your nominated account will be debited on the first day of the following month.

Failure to pay by the due date may incur a late fee and the service may be suspended until payment is made.
